MAC Address of the server that the inubit BPM software will be installed on:

| System           | MAC Address |
|------------------|-------------|
| Produktive       |             |
| HA / Clusternode |             |
| Integration      |             |
| Test             |             |
| Development      |             |

We are aware that if the MAC address of the used server is changed (e.g. change of hardware), a new license key is required, which Virtimo issues free of charge if the request form is filled out and submitted.

The licensee has taken note of the license terms of Virtimo AG and agrees to their validity.
